Part 2 Walkthrough (Needs more information regarding the tools we are choosing to implement)

Step 1: "Welcome to Part 2 of the 'VR for Dummies' tutorial. In this section, we will cover how to use basic tooling and interact with simple stations. Please turn to your Right and pick up the highlighted tool of the tooling rack!"

User picks up the tool

Step 2-(2 + # OF TOOLS) (on the screen, the information regarding the tool that was selected will be displayed): "You have picked up a (TOOL). You use this tool by (DOING AN ACTION) on (OBJECT). Please go to the highlighted station on the table while holding the tool and (PERFORM TASK).

User performs the tasks within the environment

Step (2+#oT+1): "Congratulations! You've completed Part 2 for the 'VR for Dummies' and this training tutorial (confetti/fireworks explode with cheering or something in the background). Please feel free to interact with the tools as you wish or exit the application if you're finished!"

User plays around in the environment and chooses to exit
